THE INTEGRATED METAL BODY ADOPTS ALUMINUM ALLOY BENDING PROCESS AND ANODIZED SURFACE TREATMENT. THE GAP BETWEEN THE JOINTS IS LESS THAN 0.5 MM, AND THE GAP BETWEEN THE KEYS IS LESS THAN 0.2 MM, FORMING A REFINED AND BEAUTIFUL INTEGRATED APPEARANCE.

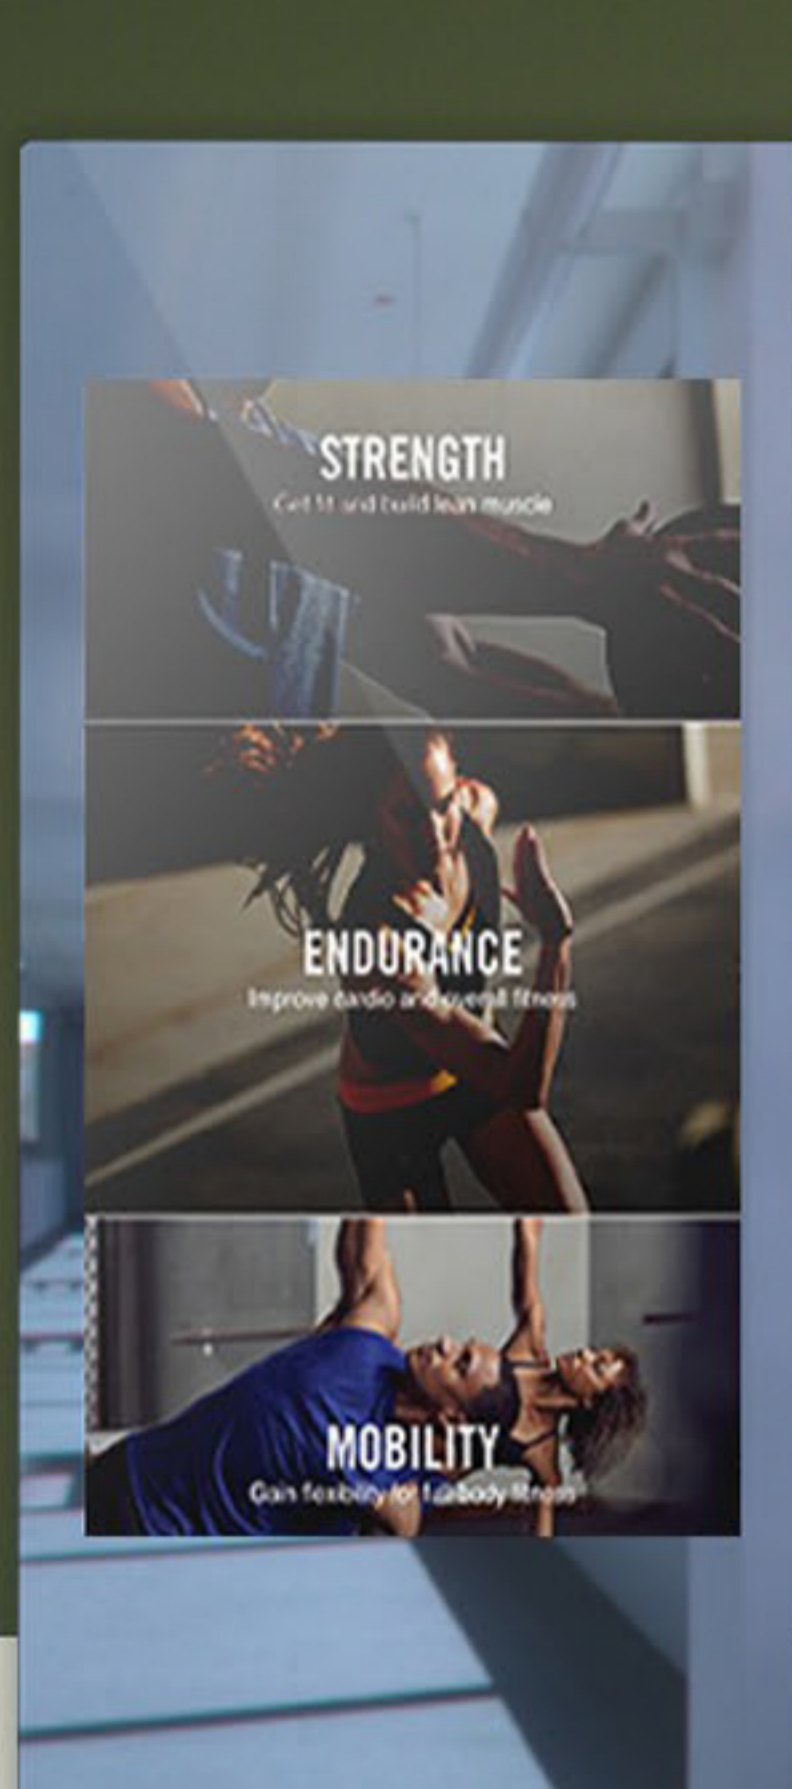

INNOVATIVE INTERACTIVE MODE, COMBINED WITH DYNAMIC CG GRAPHICS, AND REALISTIC SOUND EFFECTS, ALLOWS YOU TO INSTANTLY BE IN THE VIRTUAL GAME WORLD AND EXPERIENCE AN IMMERSIVE FITNESS EXPERIENCE.

FITNESS MIRROR

It has a small appearance and combines intelligent hardware, AI coaching, rich courses, professional services and other functions. It only needs a yoga mat space, so that you can enjoy the boutique gym class experience at home.

Small space, great enjoyment

Hardware features

Small

The thickness is only 48mm, can be hung on the wall and on the floor, no need to fold and store, and does not occupy the family space

Technology Art

The mirror surface has been tested and polished tens of thousands of times, and its flatness is very suitable for high-end home furnishings. It is inspired by the design of the Geneva patterns. It is woven by the best of the home patterns, creating an elegant corrugated frame. The magic mirror will be another technical artwork in your home.

Extraordinary audio and video experience

A 43-inch 4K high-definition screen, stereo speaker system and dual-mic array sound module, bring a more immersive audio-visual experience to the exercise process

Superb AI camera

The built-in wide-angle low-distortion AI camera can capture the user's motion picture in a larger range, and accurately identify the user's joint motion and amplitude, creating a more professional fitness experience

Humanized design

In order to ensure safety, in addition to designing a safety buckle on the back of the host to provide support for the product. At the same time, non-slip rubber strips are designed on the bottom of the bracket and the back of the main unit, which have passed tens of thousands of use safety tests to effectively prevent the product from tipping over due to accidental collision by children

Innovative mirror screen

After hundreds of experiments and comparisons, the vacuum sputtering process makes the reflector present a scientific transparent refractive index, which is convenient for users to compare with the trainer in the reflector and adjust its movement.
